

## "Total Cost of Ownership" Advantage

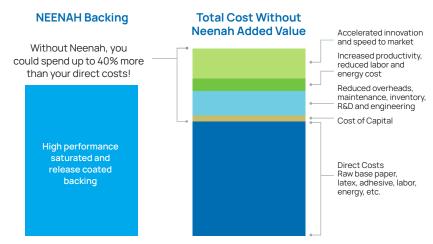

ENHANCE YOUR TAPE SUPPLY CHAIN

You may already know you can depend on Indafor to make best-in-class base papers for your high-performance tapes, but did you know we can also provide a more efficient and cost-effective way for you to produce the final product?

Let us do the heavy lifting by supplying you with a saturated and release coated tape backing. Experience the added value of cost reductions, productivity improvements, inventory management and faster speed to market with new products.

That's the Indafor Advantage.

## A COMPARISON OF TAPE PRODUCTION COST USING NEENAH SATURATED BACKING VS SELF-SATURATING A RAW BASE PAPER

% of Tape Production Costs		Indafor Advantage and Savings Potential
OPERATIONAL COSTS		
Base Paper	25%	<b>Broad capability of base papers</b> — coarse, smooth, fine, soft and nano crepes; flatbacks and re-pulpable flatbacks
Saturation and Release coating	10%	Accelerate your innovation and speed to market utilizing our 70 years of experience in latex saturation applications and chemistries
		<b>Optimize your product design</b> with our precise coat weight control and proprietary extended-release products
Adhesive coating	25%	Improved productivity and more efficient use of adhesive
Energy	5%	Our Neenah high performance tape backings run faster and more consistently for more efficient energy usage
Labor	6%	Higher output means less unit labor costs
Waste	2%	Eliminate saturator waste and waste disposal costs
Quality returns	2%	Reduce your quality issues and complaints with our < 0.2% quality return rate
Inventory	2%*	Customized inventory management programs for saturated roll supply
Maintenance	3%*	Lower maintenance and repair costs
Cost of Capital	5%*	Reduced capital investment into saturator and release coating assets
INDIRECT COSTS		
Overheads	10%*	<b>Reduction in overheads</b> across several areas — Production planning, regulatory/safety, procurement, etc.
R&D and Engineering	5%*	Accelerate your R&D and speed to market using our unmatched product portfolio and dedicated, experienced tape scientists
TOTAL	100%
