

INDAFOR TAPE AND PREMASK PRODUCTS

LEADERSHIP THROUGH INNOVATION AND QUALITY

INDAFOR Performance Materials leads the way in research, technology and problem-solving. With more than 125 years of experience and knowledge, we know our business, and we're responding to yours. Whatever your needs,

INDAFOR Performance Materials has an extensive line of Tape and Premask products which are designed to meet your expectations.

TAPE BASE PAPERS

INDAFOR Tape Base Papers are supplied in creped form or flat, saturated with reinforcing polymer, and can be provided with or without performance coatings custom to application needs. INDAFOR Performance Materials is the source for smooth (fine) crepe tapes which offer better coverage, hand feel, and reduced adhesive use by the tape manufacturer.

INDAFOR offers a wide range of solutions to meet all of your needs. Not all customer needs are the same. That's why INDAFOR Paper Performance Materials offers latex saturated papers custom designed for the specific pressure sensitive tape need.

- Crepe Base Papers
- INDAFOR Soft Tape Papers
- Flat Base Papers
- Decal Premask Papers

APPLICATIONS

- Automotive
- Industrial
- Marine
- Electronics Bandoleering
- Painting
- Packaging
- Medical & Personal Care
- Decorative Decals and Lettering
- Protective Masking

INDAFOR TAPE AND PREMASK PRODUCTS

CREPE BASE PAPERS

These papers are used in the manufacture of general purpose masking and specialty application tapes such as automotive, industrial and other paint masking applications.

NEENAH® SOFT TAPE PAPERS

A flat washi type paper for very exact and thin paint lines.

FLAT BASE PAPERS

Flat base papers range in use from packaging and diaper tapes to colored printable flat tapes used for identification.

DECAL PREMASK PAPERS

These papers are used to manufacture removable application tape for decorative decals and lettering. These designs are also used as protective masking papers for safeguarding surfaces such as polished metal, wood, plastics and glass. These specialty coatings provide added curl resistance, increased water resistance and improved grip during hand sanding applications.

PERFORMANCE ATTRIBUTES:

PAPER
Smooth (Fine) Crepe
Coarse Crepe
Thin Flatback (Washi)
Flatback
Custom Colors
Recycled Fibers
Pulpable Tapes
FSC Certification
Synthetic Fibers

SATURATION
Nitrile Butadiene Rubber
Styrene Butadiene Rubber
Acrylic
Epoxy
UV Stability
Solvent Resistance
High Temperature Resistance
High Elongation and Conformability
Custom Colors

COATINGS
Custom Coating for Adhesive Type and Tack (Natural Rubber, Hot Melt, etc.)
Best in Industry Aged Release on Rolls (Neenah proprietary KAP coating)
Custom Tape on Tape Release Performance
Water Repellence
Abrasion Resistance
Silicones
Printable
Coat Both Sides (C2S)
Two Coatings on One Side (2C1S)

SECURITY OF SUPPLY

Tape Backings are available from Bruckmühl, Bavaria, Germany and Munising, MI, USA.
